

## Services from our Social worker

---

All for Love Adoptions, Inc has a policy that after you have submitted your information to the agency you will meet with an Agency Social Worker. This is to go over any questions you may have about the adoption process and also for us to get your history. After this first meeting if you feel you may need to talk with the Social Worker again, you may do so. You are entitled to 3-50 minute counseling sessions with her. If you feel you may need more time you may have that and if you feel you do not need to meet with her you may sign the counseling denial form.
